19 January 2016

To whom it may concern,

I am writing to you on behalf of Dr. Gary Eisenberg. I have had the pleasure to work with Gary for the last two years, during which time he has provided psychological-educational services to student-athletes at Florida Atlantic University (FAU). When I was initially searching for a psychologist to work with student-athletes, Gary came highly recommended by the Student Accessibility Services (SAS) office at FAU, where he has been providing his services for more than 20 years. The professional relationship that he has formed with me and the department has proven to be invaluable.

For FAU Athletics, he has screened incoming student-athletes, provided psycho-educational testing, and offered prompt feedback. During this time, he has demonstrated his passion to work with children and young adults. He has readily been available for guidance and to provide services for our student population in a very rapid manor in order to ensure that, if eligible, students were able to receive their accommodations. In addition, he is excellent at providing uniform communication between all parties involved in assisting a student, including the student, parents, the SAS, and me. Because of his expertise and ability to properly identify the needs of an individual, I have personally seen the students he has evaluated significantly improve in their academic ability and their confidence. He has also been available to provide me with additional feedback and guidance on numerous occasions.

It is, therefore, in the strongest of terms that I endorse an opportunity to work with Dr. Gary Eisenberg. If there remains any further information about this matter, please feel free to contact me at your convenience.

Sincerely yours,

Jacqueline C. Perez, M.A.
Learning Specialist
