Letter of Recommendation: Gary M. Eisenberg, Ph.D.

From: Patricia Sperry, Ed.S., M.Ed.

To Whom it may concern:

It has been an honor and privilege to have known Dr. Eisenberg professionally since 2008. Dr. Eisenberg provided Psychological Educational Evaluations for students in Palm Beach County grade schools, middle schools and high schools. I've held a School Counselor position for two years in St. Vincent Ferrer, and three years at American Heritage School as the School Counselor for the Academy Program, a program that provides an education for learning disabled students in Delray Beach, Florida. Presently, I hold a position as an Exceptional Student Education, Autism Spectrum Disorder Teacher at Park Vista Community High School in Lake Worth, Florida.

Dr. Eisenberg provided the most competent, organized and concise Psychological Educational Evaluations available for the students in schools I held positions. He earned quite an incredible reputation for those reasons. Administrators and parents have stated how helpful his evaluations are for various reasons, e.g., they are clear and well organized enough for them to move forward with their newfound understanding of their child's Psychological Education Evaluation in order to pursue the educational direction for their children to be successful in their classrooms.

Parents have asked me for his office number and I have referred numerous parents to Dr. Eisenberg for Psychological Educational Evaluations for their child when the need arose through the years.

I admire Dr. Eisenberg's reputation as one of the most competent Psychologists in Boca Raton continually pursuing his professional growth.

Sincerely,

Mrs. Patti Sperry Ed.S., M.Ed.
